IRAs:

Roth vs. Traditional

As tax season gets underway, you may want to consider a tax-advantaged retirement savings through a traditional or Roth IRA (Individual Retirement Account). While there are tax advantages to both, the primary difference is the *time* at which you see the most advantage. A traditional IRA can help you save money on your tax liability now, while a Roth IRA is completely tax-free at retirement. Here's how it works.

>>Traditional IRA: Tax-Deferred Contributions Now<<

- Contributions today are fully or partially tax-deductible on state and federal income taxes, lowering your current taxable income. Tax is deferred until withdrawal, which means you don't pay taxes on contributions or earnings until you withdraw the money in retirement, when your tax rate may be lower because your tax bracket will likely have changed.
- Withdrawals can begin as early as 59 1/2.
- While early withdrawals are subject to a 10% penalty, there are some qualified exceptions. Ask a tax professional for details.

>>Roth IRA: Tax-Free Withdrawals in Retirement<<

- Contributions are made today with after-tax dollars. While that means your contributions are not tax-deductible today, withdrawals of contributions and earnings are 100% tax-free at retirement when you meet age qualifications (as early as 59 1/2 years) and your account has been open for at least five years.
- Plus, all earnings grow tax-free.
- Withdraw your direct contributions (not earnings) at any time, for any reason, without paying taxes or penalties.

Consult a tax advisor to ask whether an IRA makes sense for you. If it does, talk to a banker at Kerndt Brothers Bank. We're offering a **competitive 4.00% APY* on new IRA accounts funded with new money through April 15, 2026.** **Plus, Heritage Club members may earn more.**

Additionally, Kerndt Brothers offers a "Companion Savings Account." When funded the same day as your IRA, or when opening a new CD, you can earn a high APY on your savings, as well.

Stop by your local branch in Lansing, Waukon, Decorah, West Union, Clermont, or Cedar Rapids to learn more.

*APY=Annual Percentage Yield. 4.00% APY effective as of 12/15/25, and is equal to an Interest Rate of 3.94%. 12-month term. No minimum deposit required. IRAs are time deposit accounts. Additions are allowed throughout the year, not to exceed federal deposit limits. Early withdrawal penalties may apply. Fixed rate IRA accounts will change to the current effective rate on the maturity date for the IRA, for the applicable term. Kerndt Brothers Savings Bank is Member FDIC and Equal Housing Lender.

← Now Available with IRAs, too.

Consider a **Companion Savings Account** alongside your new CD or IRA. Here's how it works:

- Earn a high-yield APY. See your banker for details.
- Deposit value must be equal to or lesser than the CD (or IRA) deposit amount.
- No deposits allowed after the original open date.
- Personal accounts only.
- No time commitment.
- Unlimited in-person withdrawals.
- Avoid a maintenance fee with an average daily balance of \$50 or more per statement cycle.
